

My Patient Portal

After providing CPW with your email, within the next 24 hours you will receive an email from CPW, which will prompt you to create a **Patient Portal**. This online platform allows you to:

- Communicate securely and directly with Dr. LeDuc (during normal office hours)
- Securely send & receive any forms you need Dr. LeDuc to fill out
- View lab results & upcoming appointments

After normal office hours – 8:30am to 5:00pm Monday-Wednesday, Friday, and 8:30am to 12:00pm Thursday – if you have a medical emergency or urgent question regarding your child’s health that cannot wait a response until the next business day, call the nurse’s line on the back of your insurance card, the answering service, and/or proceed to a CHOA urgent care center, as Dr. LeDuc is unable to check messages received through the portal outside of these times.

On a laptop or PC – **not a smartphone** – simply click the “Register Here” button on the email and fill out the information prompted. After registering with a username and password, you will be able to access your account at any time from **myhealthrecord.com**.
